

RANDOM CARD POKER

PROPRIETARY CASINO POKER TABLE GAME | PUBLIC ONE-PAGE OVERVIEW

Built around a shared blind community-card reveal through the Boton D(TM) mechanic.

B2B ONLY Designed for casino operators, live dealer studios, online suppliers, distributors, investors and strategic partners.

WHAT IT IS

Random Card Poker is a proprietary poker-style casino table game built around a shared blind community-card reveal through the Boton D(TM) mechanic.

It is positioned for private commercial evaluation across land-based casino, live dealer and regulated digital RNG formats.

COMMERCIAL VALUE

- Player familiarity through a poker-style decision flow.
- Distinctive shared reveal moment designed around Boton D(TM).
- Live dealer camera value with a clear presenter beat.
- Operational simplicity for table-game review conversations.
- Optional bonus volatility without publishing full paytable detail.
- Multi-format potential across casino floor, studio and digital channels.

COMMERCIAL AUDIENCES

CASINO OPERATORS

Assess floor fit, table flow, dealer procedures, jurisdictional pathway and commercial structure.

LIVE DEALER STUDIOS

Evaluate camera-forward presentation, reveal pacing and table layout for streamed casino environments.

ONLINE RNG / DIGITAL SUPPLIERS

Discuss UI treatment, reporting assumptions and regulated digital adaptation.

DISTRIBUTORS / PARTNERS

Explore territory strategy, operator introductions and format-specific licensing discussions.

INDEPENDENT ANALYSIS

Gaming Laboratories International (GLI) completed an independent mathematical analysis of Random Card Poker.

This statement does not constitute regulatory approval, certification, authorization or permission to operate in any jurisdiction.

PRIVATE REVIEW PACKAGE

- Official game rules
- Dealer procedures
- Paytable structure
- Mathematical analysis summary
- Table layout concept
- Live dealer presentation concept
- Commercial licensing discussion

Complete materials are shared during the review process. Public materials do not disclose complete paytables, sensitive math, implementation logic or full operating documents.

DESIGN ORIGIN

Designed by Gonzalo Ivan Montoya Martinez, bringing casino floor operations and table-games management experience into the table flow, dealer procedures and reveal design.
